## G R O U P P R O F I L E

The B. P. Marsh Group (the “Group” or the “Company”) is a niche venture capital provider to early stage financial services businesses. It will consider investing in start-ups, management buy-outs, management buy-ins, hive-offs and similar opportunities. It is also able to provide follow-on funding for successful companies in its portfolio when required for further growth.

The Group typically invests up to £2.5 million in financial service investment opportunities based in the United Kingdom, but will also consider opportunities in Europe, North America and occasionally elsewhere. It likes to invest in people businesses with good management.

The Group does not seek to impose exit pressures on its investee companies, but prefers to work with management to develop a mutually acceptable exit route.

The Group has a considerable bank of experience in the financial services sector and seeks to use this experience to add value to its investments. It is also able to provide consultancy and administrative services to its portfolio of investments when required.

The Group's aim is to be the capital provider of choice to the financial services intermediary sector.

WE ARE IN THE BUSINESS OF PLANTING THINGS,  
NOT SHOOTING AT THEM — WE ARE FARMERS  
NOT HUNTERS

# CHAIRMAN'S STATEMENT

I am pleased to present the audited Consolidated Financial Statements of B. P. Marsh & Partners Plc for the year ended 31<sup>st</sup> January 2013.

In this, our 23<sup>rd</sup> year of operations, I am pleased to be able to report that we have again been able to increase our NAV by 10.6%, as more particularly set out below.

Our eight investee companies, large and small, are all in good heart and facing the opportunities and challenges of 2013 with confidence and enthusiasm.

Whilst we expect major developments and changes to take place in our portfolio over the coming months, we have every confidence in the future of our business, which continues to enjoy much diversity and a truly global reach.

Agreement has been reached for a sale of 80% of our shareholding in Hyperion Insurance Group Ltd, however this is still subject to regulatory consent. We are not in the habit of setting out plans until we know with a degree of certainty what will prevail.

## FINANCIAL PERFORMANCE

At 31<sup>st</sup> January 2013, the net asset value of the Group was £55.5m (2012: £50.1m), after making allowance for deferred corporation tax, an increase of 10.6%. This equates to a net asset value of 190p per ordinary share as at 31<sup>st</sup> January 2013 (2012: 171p).

The Group has therefore achieved an annual compound growth rate of 11.9% after running costs, realisations, losses and distributions and having made an appropriate allowance for deferred corporation tax since the Group's establishment in 1990 (excluding £10.1m raised on flotation).

Reflecting investment portfolio movement, including the unrealised increase on revaluation of the portfolio, the consolidated profit on ordinary activities after tax for the year was £5.7m (2012: profit of £3.6m), an increase of 55.7%. However, excluding portfolio movement the Group made a pre-tax profit of £0.06m (2012: profit of £0.11m). The Group aims each year to at least break even on an underlying basis, before taking into account any portfolio movement.

£3.7m of gains were realised on the sale of investments during the year, as set out below. Due to the value of these investments being included at sale price within the 31<sup>st</sup> January 2012 portfolio valuation, no profit was shown directly within the Consolidated Statement of Comprehensive Income as the uplift in valuation had been previously reflected as unrealised gains in previous years. On sale the £3.7m realised gains were therefore transferred from the fair value reserve to retained earnings within the Consolidated Statement of Financial Position.

The Board believes that the Group's prospects remain good, despite the continued difficult outlook for the global economy. The directors continue to explore all opportunities for realisations and development within the portfolio.

## SUMMARY OF DEVELOPMENTS IN THE PORTFOLIO

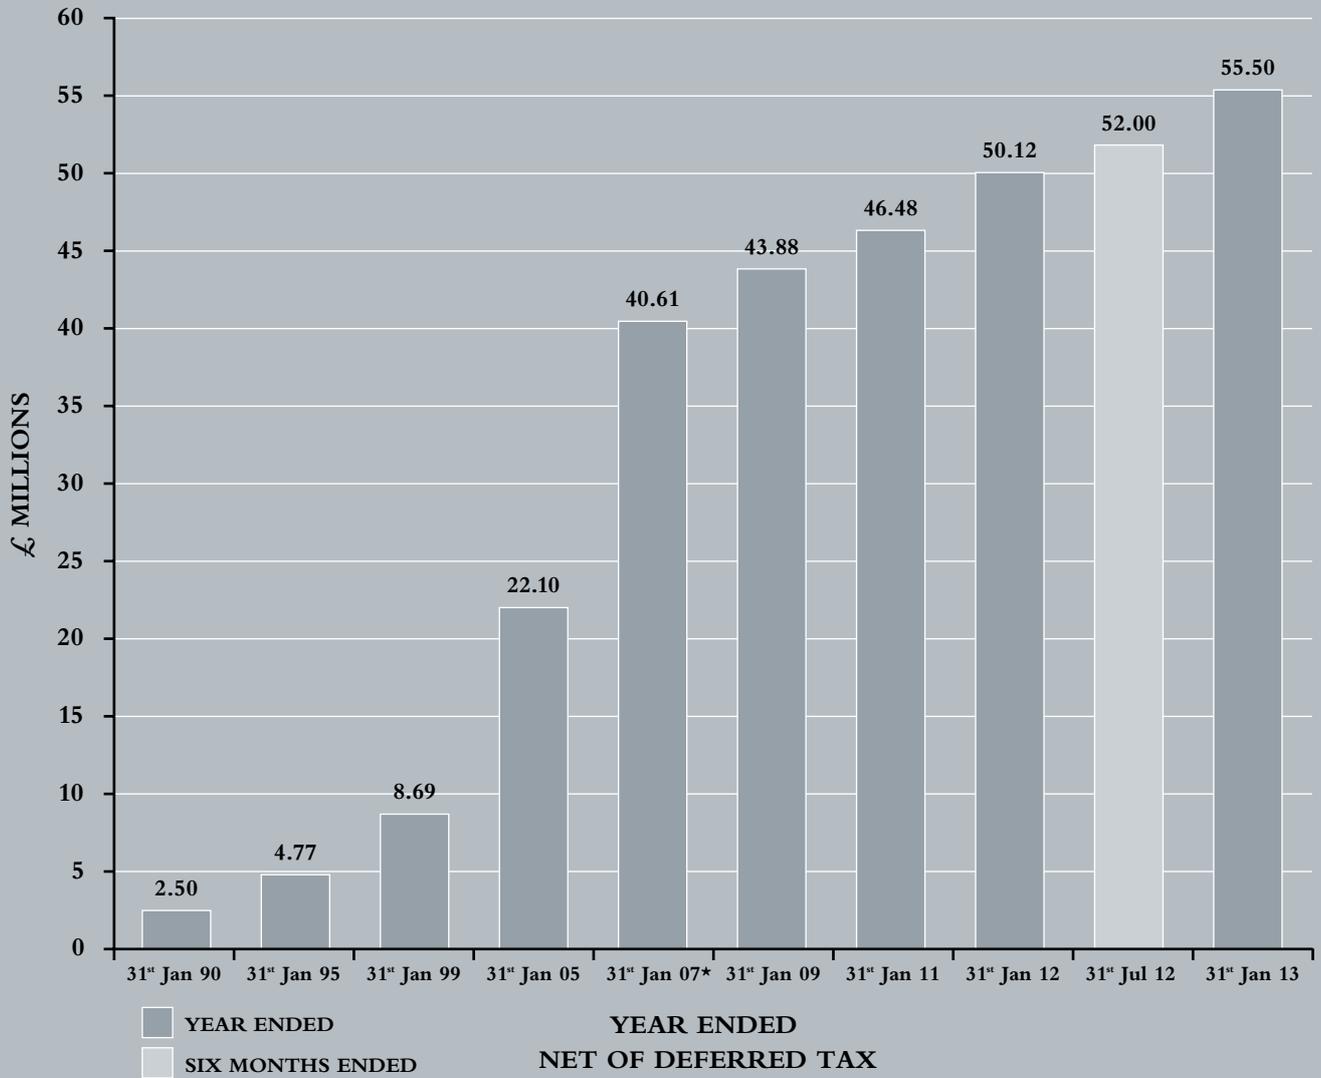

During the financial year ended 31<sup>st</sup> January 2013, the following developments took place within the Group and its portfolio:

- **Hyperion Insurance Group Limited (“Hyperion”)**

- **Partial disposal of shares to Murofo Investments SL (“Murofo”)**

- In May 2012 the Group sold 2.75% of its 18.94% shareholding in Hyperion to a fellow investor, Murofo, for a total consideration of £4.54m, or the equivalent of £3.80 per share.

# GROUP VALUATIONS

\*NB: The valuation at 31<sup>st</sup> January 2007 includes £10.1m net proceeds raised on AIM.

# CHAIRMAN'S STATEMENT

(CONTINUED)

This sale resulted in the Group realising what was its overall equity investment in Hyperion, (£4.35m over 17 years) whilst allowing it to continue with a significant shareholding and the prospect of further growth. This sale delivered £3.7m in profit for the Group.

In July 2012 Hyperion completed the acquisition of Windsor Limited, an international insurance and reinsurance Lloyd's broking group. As a result of this acquisition, the Group's shareholding was diluted from 16.19% to 13.97%.

- **Besso Insurance Group Limited ("Besso")**

**Acquisition of further 6.71% shareholding**

On 1<sup>st</sup> November 2012 the Group increased its shareholding by 6.71% for a cash consideration of £0.78m. The Group's equity interest in Besso increased from 30% to 36.71% as a result (with economic rights over 36.48%).

This further investment was made alongside a consortium of American investors, who are well-known to Besso's business, who acquired 5.85% of Besso for a cash consideration of £0.70m.

Subsequent to the above, Besso had a positive 2012 financial year and is in the final stages of negotiations to complete several value accretive acquisitions. The Group, having worked alongside Besso's management team in reviewing these investments, is of the opinion that these would be positive additions to Besso.

- **LEBC Holdings Limited ("LEBC")**

LEBC Group Limited ("LEBC Group"), the trading subsidiary of LEBC, has announced a significant turnaround in its financial performance, which sees the national IFA and employee benefits consultancy secure a year-on-year turnaround in profit before tax of £1.1m (FY2012 profit of £0.5m versus FY2011 loss of £0.6m), on a turnover of £10.2m, for the year ended 30<sup>th</sup> September 2012.

The Edinburgh-headquartered firm, which has 13 branches throughout the United Kingdom, has also reported a positive start to the new year, with strong revenue and profit growth.

- **Summa Insurance Brokerage SL ("Summa")**

Despite the economic environment in Spain, Summa grew revenue in 2012 and maintained a satisfactory profit margin, which is in stark comparison to many other insurance operations in the Spanish market.

The Group has been working alongside Summa's Management team to develop their interaction with the Lloyd's and London Market, and has made various introductions to augment Summa's service offering to their clients.

The Group has also assisted Summa in the sourcing and recruitment of a new Chief Financial Officer so as to further improve the infrastructure for growth within this investment.

Notwithstanding the above, 2013 is likely to be a challenging year for Summa and the Board have reflected continued uncertainty surrounding the Spanish economy within its valuation of the business.

- **The Broucour Group Limited ("Broucour")**

By 31<sup>st</sup> January 2013 Turner Butler Limited, a specialist SME business sales agency and a subsidiary of Broucour reached £0.5m revenue in just six months trading since its acquisition for £0.4m on 27<sup>th</sup> July 2012, over double its budgeted target. This acquisition was funded by loan financing provided by the Group. As a result of this performance the first loan repayment of £0.05m was made in March 2013, over two months ahead of schedule.

## POST BALANCE SHEET EVENTS

### • **Hyperion–Partial disposal of shares to General Atlantic**

On 27<sup>th</sup> March 2013, the Group reached agreement with General Atlantic to sell 80% of its shareholding in Hyperion (11.04% of Hyperion's issued share capital) alongside 3i, at £5.20 per share. Due to its size in relation to the remainder of the portfolio, this transaction was put before the Company's shareholders at a General Meeting on 16<sup>th</sup> April 2013 where it was duly approved, and completion is now conditional upon regulatory approvals being granted in Spain, Singapore and Texas, USA. Completion of this transaction will see the Company in receipt of £29.2m pre-tax, and represents an effective uplift of £4.3m upon the Company's 31<sup>st</sup> July 2012 valuation.

The Group will continue to hold a 2.76% shareholding in Hyperion, which will be held under a Call Option with General Atlantic, who will be able to purchase the shares at £5.20 for a period of three years, or when Hyperion undertakes an Initial Public Offering, whichever is the sooner. In addition, the Company will no longer benefit from its previous minority protections or a nominee director on the Hyperion Board due to its reduced shareholding.

One of the terms of the transaction was that the Company provide an ongoing £6m loan to enable Hyperion to refinance a majority of the existing shareholder debt, and this has been agreed at an interest rate of 7.5% (increasing if the Bank of England Base rate increases beyond 2.5%) for a minimum term of 12 months.

Due to the sale price being agreed and significant due diligence having been carried out prior to the year-end, the valuation of Hyperion as at 31<sup>st</sup> January 2013 is reflective of this offer.

### • **LEBC**

The Group can confirm that LEBC (the holding company for LEBC Group) has completed the acquisition of Sesame Bankhall Group's remaining 10% stake in LEBC Group, which Sesame has held since its initial investment in LEBC Group in 2000. LEBC Group is now a 100% subsidiary of LEBC.

The Group is also happy to announce that LEBC Group won the award for Best Retirement Advisor at the Money Marketing Financial Services Awards 2013. This is a fine vindication of the service offering provided by LEBC.

## DIRECTORS' LOAN

The Group repaid the £1.25m drawn down on the £4.325m Directors' Loan facility upon receipt of funds from the sale of Hyperion shares to Murofo, such that at the year-end no amounts were due. Since 31<sup>st</sup> January 2013 £2.08m of Directors' loans were used to fund a draw down by US Risk (UK) of its loan facility and a new acquisition for Besso, and a further £2.25m has been drawn down to fund a new investment opportunity due to complete shortly. The facility will be repaid in full following completion of the Hyperion disposal to General Atlantic and the facility will thereafter be cancelled.

## BUSINESS STRATEGY

The Group typically invests amounts of up to £2.5m and only takes minority equity positions, normally acquiring between 15% and 45% of an investee company's total equity. Based on our current portfolio, the average investment has been held for approximately 9 years. The Group requires its investee companies to adopt certain minority shareholder protections and appoints a director to its board. The Group's successful track record is based upon a number of factors that include, amongst other things, a robust investment process, the management's considerable experience of the Financial Services sector and a flexible approach towards exit-strategies.

# CHAIRMAN'S STATEMENT

(CONTINUED)

At the year end, the Group had £1.79m in cash, plus a further £4.325m Directors' loan facility available. Of the £6.1m, £4.0m is available for new investment opportunities after providing for commitments to loan funding for existing investments.

## BOARD COMPOSITION

The Board appointed Natasha Dunbar as an executive director in February 2013, in order to reflect her increased involvement in the Company and the executive duties that she had taken on. Natasha served as Managing Director of the Company between 2002 and 2008, following which she was appointed as a non-executive director.

Pursuant to the above transfer of duties the Board felt that an additional non-executive director would assist to rebalance the Board, and duly invited Campbell Scoones to join the Board as a non-executive director and member of the Remuneration Committee with effect from 19<sup>th</sup> April 2013.

## INVESTMENT OPPORTUNITIES

The Group continued to receive a strong inflow of opportunities in the year ended 31<sup>st</sup> January 2013 and believes that this trend will continue. The New Business Department gave its detailed consideration to a number of these; including propositions from within the insurance intermediary and wealth management sectors. The Group is currently in the final stages of completing a new investment and hopes to make an announcement regarding this within the next week. The Board will continue to pursue opportunities in the best interests of the Group's shareholders.

The Group's investment strategy remains unchanged; to take minority positions in profitable businesses with strong management teams and good growth potential. The directors consider that the Group remains unique in its investment sector and we continue to see a sufficient number of investment opportunities with good management and business plans that would fit with our tried and tested business strategy.

The Company reports formally to the shareholders twice a year, when its half-yearly and full-year results are announced, when reports are sent to shareholders and published on the Company's website ([www.bpmarsh.co.uk](http://www.bpmarsh.co.uk)). The Company also produces quarterly trading updates, in order to ensure a consistent flow of information throughout the year.

## STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare Group and Company financial statements for each financial year. Under that law, the directors have elected to prepare the Group and Company financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and Company and the Group's profit or loss for that period. The directors are also required to prepare financial statements in accordance with the rules of the London Stock Exchange for companies trading securities on the Alternative Investments Market.

In preparing financial statements the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with IFRS as adopted by the EU subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and the Company will continue in business.

The directors confirm that they have complied with the above requirements in preparing the financial statements.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Group and Company and enable them to ensure the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Group and the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for ensuring the annual report and the financial statements are made available on a website. Financial statements are published on the Company's website in accordance with legislation in the United Kingdom governing the preparation and dissemination of financial statements, which may vary from legislation in other jurisdictions. The maintenance and integrity of the Company's website is the responsibility of the directors. The directors' responsibility also extends to the on-going integrity of the financial statements contained therein.

# GROUP REPORT OF THE DIRECTORS

## DISCLOSURE OF INFORMATION TO THE AUDITORS

Each of the persons who are directors at the time when the Group Report of the Directors is approved has confirmed that:

- so far as that director is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- that director has taken all steps that ought to have been taken as a director in order to be aware of any information needed by the Company and Group's auditors in connection with preparing their report and to establish that the auditors are aware of that information.

This information is given and should be interpreted in accordance with the provisions of Section 418 of the Companies Act 2006.

## PRINCIPAL ACTIVITY

The principal activity of the Group during the year was the provision of consultancy services to, as well as making and trading investments in, financial services businesses.

## COUNTRY OF INCORPORATION AND REGISTRATION

B. P. Marsh & Partners Plc was incorporated and is registered in England and Wales.

## BUSINESS REVIEW

During the year the major activities of the Group were as follows:

- The Group repaid the £1,250,000 directors' loan outstanding (from a total available facility of £4,325,000) as at 31<sup>st</sup> January 2012. £250,000 and £1,000,000 was repaid on 24<sup>th</sup> February 2012 and 18<sup>th</sup> June 2012 respectively (see Notes 16 and 26).
- On 16<sup>th</sup> March 2012 the Group made a partial disposal of 4.02% of its then total 34.02% equity interest in Besso Insurance Group Limited ("Besso") for consideration of £278,698. The partial disposal was made from an 11.29% equity interest in Besso originally acquired on 31<sup>st</sup> March 2011 by B. P. Marsh & Company Limited, a wholly owned subsidiary of the Company, which at the time increased the Group's overall holding from 22.73% to 34.02%. The 4.02% disposal represented the proportion of shares which were available for buy-back by Besso following the exercise of a Call Option agreement (entered into on 26<sup>th</sup> May 2011) for subsequent issue to management under a share incentive scheme. Following the exercise of the Call Option and the Group's subsequent subscription on 18<sup>th</sup> April 2012 to 126,833 2p voting only shares in Besso for consideration of £2,537 (in order, as a founder shareholder, to maintain its voting rights), the Group's overall holding in Besso stood at 30%.
- On 19<sup>th</sup> March 2012, in order to facilitate both the exercise of the Call Option above and the upfront payment of a three year loan arrangement fee to the Group totalling £300,000, the Group agreed to provide £578,698 of further loan funding to Besso (in addition to the £400,000 loan facility already drawn down as at 31<sup>st</sup> January 2012), bringing the total outstanding as at 31<sup>st</sup> January 2013 to £978,698, excluding loan notes. Both the partial disposal and the provision of further loan funding had no cash impact for the Group.
- On 5<sup>th</sup> April 2012 the Group entered into a Monitoring Agreement with U.S. Risk Insurance Group, Inc. (the USA-domiciled parent company of U.S. Risk (UK) Limited ("U.S. Risk"), an associated company). Under the agreement, the Group assists in providing certain services to U.S. Risk Insurance Group, Inc. including review, oversight and audit of certain aspects of the day to day operations of U.S. Risk and its subsidiaries, in return for an annual "Monitoring Services Fee" equivalent to the Bank of England base rate plus 4% (subject to a minimum of 11% per annum) of the original investment in the company's preference shares of £1,396,417. This fee arrangement replaces the Group's entitlement to a preference dividend of the equivalent amount (effective from 1<sup>st</sup> January 2011) as set out in the original agreements between the Group and U.S. Risk entered into in July 2010.

- On 17<sup>th</sup> May 2012 the Group made a disposal of 2.75% of its total 18.94% equity interest in Hyperion Insurance Group Limited (“Hyperion”). 1,193,500 shares (from a total holding of 8,222,900 shares) were sold to an existing Hyperion shareholder and co-investor, Murofo Investments S.L., for cash consideration of £4,535,330.
- The Group received loan repayments of £92,250 from Hyperion. In July 2012 the loan was converted from quarterly repayments to full repayment on 3<sup>rd</sup> October 2017 as part of the agreed terms for Hyperion’s acquisition of Windsor Limited. As a result of this acquisition the Group’s equity holding at that time in Hyperion was diluted from 16.19% to 13.97%.
- In August 2012 the Company repurchased 56,143 of its ordinary shares at a price of 89 pence per share. These shares were immediately cancelled upon purchase, resulting in a reduction in the number of ordinary shares in issue from 29,286,143 to 29,230,000.
- On 27<sup>th</sup> July 2012 the Company’s wholly owned subsidiary B. P. Marsh & Company Limited entered into a Share Exchange Agreement with The Broucour Group Limited (“the Broucour Group”) in respect of its 49% equity investment in Amberglobe Limited (“Amberglobe”). On this date the Broucour Group acquired the entire issued share capital of Amberglobe (£200,000 divided into £130,000 ordinary shares and £70,000 preference shares of £1 each, of which the Group, through its subsidiary undertaking, owned £98,000 divided into £28,000 ordinary shares and £70,000 preference shares). The Broucour Group was incorporated in July 2012 as a holding company to facilitate the acquisition of the assets of Turner Butler Limited (“Turner Butler”). The Group assisted in this acquisition by providing the Broucour Group with a £600,000 loan facility to fund the acquisition cost and associated working capital requirements which was drawn down in full on 27<sup>th</sup> July 2012 and as at 31<sup>st</sup> January 2013 remained outstanding. As a result of this transaction, the Group’s original investment in Amberglobe is now held in the Broucour Group, with Amberglobe now a wholly owned subsidiary of the Broucour Group.
- On 1<sup>st</sup> November 2012 the Group, in conjunction with a consortium of American investors, took up the opportunity to increase its equity position in Besso by purchasing Michael Wade’s stake (the former Chairman of Besso). The Group increased its shareholding by 6.71% from 30% to 36.71% (with economic rights over 36.48%) for cash consideration of £775,000. On the same date the Group also subscribed for a further £135,000 of 14% loan stock in Besso. This transaction, together with the £25,000 of loan notes subscribed for on 24<sup>th</sup> May 2012, brings the total amount of loan stock held by the Group to £2,700,000 as at 31<sup>st</sup> January 2013 together with £978,698 of other loans outstanding.
- On 21<sup>st</sup> December 2012 the Group entered into an agreement to provide a further €400,000 (£333,238) loan to Summa Insurance Brokerage, S.L. (“Summa”).
- The Group also received loan repayments totalling €370,800 (£302,902) in respect of its shareholder loans to Summa. As at 31<sup>st</sup> January 2013 totalling €1,971,879 (£1,688,251) remained outstanding to the Group.
- On 30<sup>th</sup> January 2013 the Group acquired a further 102 ordinary shares (0.85%) in U.S. Risk (UK) Limited (“U.S. Risk”) for consideration of £38,783, increasing its shareholding from 28.43% to 29.28%.

### Financial Performance

At 31<sup>st</sup> January 2013, the net asset value of the Group was £55.5m (2012: £50.1m) including a provision for deferred tax. This equates to an increase in net asset value of 10.6%, or an increase of 11.2% excluding the dividend payment (2012: increase of 7.8%). The increase in net asset value was mainly as a result of revaluing the portfolio in line with current market conditions, and the underlying business (excluding portfolio movement) showed a pre-tax profit of £0.06m (2012: £0.11m).

The net asset value of £55.5m at 31<sup>st</sup> January 2013 represented a total increase in net asset value of £42.9m since the Group was originally formed in 1990 having adjusted for the £10.1m net proceeds raised on AIM and the original capital investment of £2.5m. The directors note that the Group has delivered an annual compound growth rate of 11.9% in Group net asset value after running costs, realisations, losses, distributions and deferred tax since 1990.

Based upon the above figures the Group’s net asset value per share as at 31<sup>st</sup> January 2013 was 190p (2012: 171p).

The consolidated profit on ordinary activities after taxation was £5.7m (2012: profit of £3.6m). The consolidated profit on ordinary activities before taxation was £6.2m (2012: profit of £4.4m). This profit includes unrealised gains of £6.1m on investment revaluations (2012: gains of £4.6m), and therefore the increase in profit compared to 2012 is principally as a result of the investment portfolio being valued higher than in 2012 and reflects improvement in investment performance.

# GROUP REPORT OF THE DIRECTORS

(CONTINUED)

Overall income from investments was marginally down on 2012 as a result of reduced dividend yields, although interest and fee earnings increased, reflecting new arrangements made with the Group's existing investee companies during the year. Operating expenses include long term incentive payments of £0.25m (2012: £0.12m). Excluding these, expenses are consistent with 2012. The Group continued its strategy of covering operational expenses through portfolio yield without the requirement for significant realisations.

The Group's investment portfolio movement during the year was as follows:

| 31 <sup>ST</sup> JANUARY<br>2012 VALUATION | ACQUISITIONS<br>AT COST | DISPOSALS<br>PROCEEDS | IMPAIRMENT<br>PROVISIONS | ADJUSTED<br>31 <sup>ST</sup> JANUARY<br>2012 VALUATION | 31 <sup>ST</sup> JANUARY<br>2013 VALUATION |
|--|-------------------------|-----------------------|--------------------------|--|--|
| £50.6m                                     | £0.8m                   | £(4.9)m               | £nil                     | £46.5m   | £52.7m                                     |

This equates to an increase in the portfolio valuation of 13.3% (2012: increase of 10.0%).

## Future Prospects

During the year under review, although no new investments were made, the Group continued to assist and support its investments through follow-on funding to enable continued growth. A number of prospective investments were considered and the Group continues to receive a strong pipeline of opportunities and continues to evaluate them for investment potential.

## FINANCIAL RISK MANAGEMENT

The Group's operations expose it to a variety of financial risks. The Group manages the risk to limit the adverse effects on the financial performance of the Group by monitoring those risks and acting accordingly. As at 31<sup>st</sup> January 2013 the Group was debt free (31<sup>st</sup> January 2012: £1.25m debt as part of a drawdown of a £4.325m Directors' Loan Facility). During the year, following the receipt of funds from the partial disposal of an investment (Note 12), the Group repaid the £1.25m of the Directors' Loan Facility outstanding as at 31<sup>st</sup> January 2012 (Notes 16 and 26). The Group has since 31<sup>st</sup> January 2013 drawn down the facility in full (£4.325m) to fund an agreed loan facility draw down request from one of its investee companies (noted below in the 'Post Balance Sheet Events' section of this report) as well as to finance a new investment which is expected to complete within a week of signing these consolidated financial statements.

The monitoring of the financial risk management is the responsibility of the Board. The policies of the Board of directors are implemented by the Group's finance department under specific guidelines.

### Price risk

The Group is exposed to private equity securities price risk. The Group manages the risk by ensuring that a director is appointed to the board of each investee company. In this capacity, the appointed director can advise the Group's Board of the investee companies' activities and prompt action can be taken to protect the value of the investment. Management reports are required to be prepared by investee companies for the review of the appointed director and by the Group Board.

### Credit risk

The Group provides consulting services to its investee companies which are investigated before an investment is made and are continually monitored. As such the directors believe that the credit risk is adequately managed.

### Liquidity risk

The directors assess and review the Group's liquidity position and funding requirements on a regular basis and this is an agenda item for its Board meetings. They consider that the Group has sufficient liquidity to manage current commitments.

# GROUP REPORT OF THE DIRECTORS

(CONTINUED)

## Interest rate cash flow risk

At 31<sup>st</sup> January 2013, the Group had no interest bearing liabilities but had interest bearing assets. Interest bearing assets are loans made available to investee companies to aid their expansion, and are normally subject to a minimum interest rate to protect the Group from a period of low interest rates.

## Currency risk

Although the Group's investments are predominantly within the UK it also makes investments and derives income outside the UK. As such some of the Group's income and assets are subject to movement in foreign currencies which will affect the Consolidated Statement of Comprehensive Income in accordance with the Group's accounting policy. The Board monitors the movements and manages the risk accordingly.

## RESULTS OF THE BUSINESS

The results for the year are set out on page 25. The directors consider the current state of affairs of the Group to be satisfactory.

## DIVIDENDS

A final dividend of £292,861 (1p per share) was paid on 30<sup>th</sup> July 2012 in respect of the previous financial year (2012: £nil). The directors do not recommend a final dividend in respect of the current year.

### POST BALANCE SHEET EVENTS

On 1<sup>st</sup> March 2013 the Group subscribed for a further £50,000 of 14% loan stock in Besso Insurance Group Limited ("Besso"). The loan stock is in addition to the £2,700,000 already held by the Group as at 31<sup>st</sup> January 2013, bringing the total 14% loan stock held to £2,750,000 as at the date of this report.

On 21<sup>st</sup> March 2013 the Group utilised £875,000 of the Directors' Loan Facility (see Note 16) in order to ensure that sufficient funds are available to pursue the various new business opportunities that it is currently investigating. On 25<sup>th</sup> March 2013 the Group utilised a further £1,200,000 of this facility in order to fund a reciprocal loan draw down request from U.S. Risk (UK) Limited (noted below). On 31<sup>st</sup> May 2013 the Group utilised the remaining £2,250,000 of the facility to finance a new investment which is expected to complete within a week of signing these consolidated financial statements, therefore as at the date of this report the £4,325,000 facility had been drawn down in full.

On 27<sup>th</sup> March 2013 the Group announced that, subject to FCA and other overseas regulatory approval, it had agreed to sell 5,623,520 shares (from a total holding of 7,029,400 shares) in Hyperion Insurance Group Limited ("Hyperion") to the global growth equity firm General Atlantic for a cash consideration of £29,242,304 (£5.20 per A Ordinary share). On completion the Group will retain a 2.76% stake in Hyperion subject to a Call Option arrangement which will allow General Atlantic to purchase the Group's remaining stake of 1,405,880 A Ordinary shares of Hyperion at £5.20 per share. The Call Option will expire and fall away upon the third anniversary of completion or upon Hyperion undertaking an Initial Public Offering ("IPO"), whichever is the earlier. The Share Purchase Agreement includes an anti-embarrassment provision which provides that if Hyperion undertakes an IPO within twelve months of completion, at a price at or in excess of £6.25 per A Ordinary share, there will be an additional amount payable to the Group, up to a maximum of £0.30 per A Ordinary share.

As part of the above agreement, and subject to banking consent, the Group has also agreed to provide circa £6,100,000 in loan funding to Hyperion at an interest rate of Bank of England Base rate plus 5% (minimum 7.5%) for a minimum term of 12 months to refinance existing shareholder loans (including £2,754,392 that the Group has already provided to Hyperion). The loan will be repayable on an IPO or a change of control of Hyperion or 3<sup>rd</sup> October 2017, whichever is the earlier, but following the first anniversary of this facility Hyperion will be able to pre-pay the loan prior to these events on the giving of one months' notice.

This report is made solely to the Company’s members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company’s members those matters we are required to state to them in an auditor’s report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company’s members as a body, for our audit work, for this report, or for the opinions we have formed.

In addition, we read all the financial and non-financial information in the Directors’ Report and Consolidated Financial Statements to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

### **Opinion on financial statements**

- the part of the Report of the Remuneration Committee to be audited has been properly prepared in accordance with the Companies Act 2006; and
- the information given in the Group Report of the Directors for the financial year for which the financial statements are prepared is consistent with the financial statements.

No Company Statement of Cash Flows has been prepared as there has been no cash flow movement in the Company during the current and previous period, other than dividends received from B. P. Marsh & Company Limited (“BPMCL”), a subsidiary company, which were settled via an intercompany adjustment. The ordinary dividend payment to the Company’s members and the share repurchase during the year were physically made by BPMCL and reflected in the Company through an intercompany adjustment. Accordingly the Company’s “cash and cash equivalents” balance as at 31<sup>st</sup> January 2013 is £1k (2012: £1k).

## 1. ACCOUNTING POLICIES

### **Basis of preparation of financial statements**

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted for use by the European Union (“IFRS”), and in accordance with the Companies Act 2006.

The consolidated financial statements have been prepared under the historical cost convention as modified by the revaluation of certain financial assets and financial liabilities through profit and loss.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates particularly in relation to investment valuation. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies.

### **New standards effective during the year**

None of the new standards, interpretations or amendments, which are effective for the first time in these consolidated financial statements, has had a material impact on these consolidated financial statements.

### **Basis of consolidation**

The Group financial statements consolidate the results and net assets of the Company and all of its subsidiary undertakings.

### **Business combinations**

The results of subsidiary undertakings are included in the consolidated financial statements from the date that control commences until the date that control ceases. Control exists where the Group has the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities. Accounting policies of the subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

All business combinations are accounted for by using the acquisition accounting method. This involves recognising identifiable assets and liabilities of the acquired business at fair value. Goodwill represents the excess of the fair value of the purchase consideration for the interests in subsidiary undertakings over the fair value to the Group of the net assets and any contingent liabilities acquired. The one exception to the use of the acquisition accounting method was in 2006 when B.P. Marsh & Partners Plc became the legal parent company of B.P. Marsh & Company Limited in a share for share exchange transaction. This was accounted for as a reverse acquisition, such that no goodwill arose, and a merger reserve was created reflecting the difference between the book value of the shares issued by B.P. Marsh & Partners Plc as consideration for the acquisition of the share capital of B.P. Marsh & Company Limited. This compliance with IFRS 3 also represented a departure from the Companies Act.

Intra-group balances and any unrealised gains and losses or income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements.

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Investments that are held as part of the Group’s investment portfolio are carried in the Consolidated Statement of Financial Position at fair value even though the Group may have significant influence over those companies. This treatment is permitted by IAS 28 Investment in Associates (“IAS 28”), which requires investments held by venture capital organisations to be excluded from its scope where those investments are designated, upon initial recognition, as at fair value through profit or loss and accounted for in accordance with IAS 39, with changes in fair value recognised in the profit or loss in the period of the change. The Group has no interests in associates through which it carries on its business.

## 1. ACCOUNTING POLICIES (CONTINUED)

### **Business combinations (continued)**

No Statement of Comprehensive Income is prepared for the Company, as permitted by Section 408 of the Companies Act 2006. The Company made a profit for the year of £5,676,742, prior to a dividend distribution of £292,861 (2012: profit of £3,644,959).

### **Investments**

All investments are designated as “fair value through profit or loss” assets and are initially recognised at the fair value of the consideration. They are measured at subsequent reporting dates at fair value.

The Board conducts the valuations of investments. In valuing investments, the Board applies guidelines issued by the International Private Equity and Venture Capital Valuation (“IPEVCV”) Committee. The following valuation methodologies have been used in reaching the fair value of investments, some of which are in early stage companies:

- a) at cost, unless there has been a significant round of new equity finance in which case the investment is valued at the price paid by an independent third party. Where subsequent events or changes to circumstances indicate that an impairment may have occurred, the carrying value is reduced to reflect the estimated extent of impairment;
- b) by reference to underlying funds under management;
- c) by applying appropriate multiples to the earnings and revenues of the investee company; or
- d) by reference to expected future cash flow from the investment where a realisation or flotation is imminent.

Both realised and unrealised gains and losses arising from changes in fair value are taken to the Consolidated Statement of Comprehensive Income for the year. In the Consolidated Statement of Financial Position the unrealised gains and losses arising from changes in fair value are shown within a “fair value reserve” separate from retained earnings. Transaction costs on acquisition or disposal of investments are expensed in the Consolidated Statement of Comprehensive Income.

### **Income from investments**

Income from investments comprises:

- a) gross interest from loans, which is taken to the Consolidated Statement of Comprehensive Income on an accruals basis;
- b) dividends from equity investments are recognised in the Consolidated Statement of Comprehensive Income when the shareholders rights to receive payment have been established; and
- c) advisory fees from management services provided to investee companies, which are recognised on an accruals basis in accordance with the substance of the relevant investment advisory agreement.

### **Carried interest provision**

This represents the amount payable to a director in the event of a particular investment being sold and is calculated on the fair value of that investment at the end of each reporting period.

### **Property, plant and equipment**

Property, plant and equipment are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the property, plant and equipment cost less their estimated residual value, over their expected useful lives on the following bases:

- Furniture & equipment – 5 years
- Leasehold fixtures and fittings – over the life of the lease

## 1. ACCOUNTING POLICIES (CONTINUED)

### **Foreign currencies**

Monetary assets and liabilities denominated in foreign currencies at the reporting period are translated at the exchange rate ruling at the reporting period.

Transactions in foreign currencies are translated into sterling at the foreign exchange rate ruling at the date of the transaction.

Exchange gains and losses are recognised in the Consolidated Statement of Comprehensive Income.

### **Taxation**

The tax expense represents the sum of the tax currently payable and any deferred tax. The tax currently payable is based on the estimated taxable profit for the year. Taxable profit differs from net profit as reported in the Consolidated Statement of Comprehensive Income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the date of the Consolidated Statement of Financial Position.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and of liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and it is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary differences arise from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each date of the Consolidated Statement of Financial Position and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited to the Consolidated Statement of Comprehensive Income, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current assets and liabilities on a net basis.

### **Pension costs**

The Group operates a defined contribution scheme for some of its employees. The contributions payable to the scheme during the period are charged to the Consolidated Statement of Comprehensive Income.

## 1. ACCOUNTING POLICIES (CONTINUED)

### **Operating leases**

Rentals under operating leases are charged on a straight-line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight-line basis over the period until the date the rent is expected to be adjusted to the prevailing market rate.

### **Financial assets and liabilities**

Financial instruments are recognised in the Consolidated Statement of Financial Position when the Group becomes party to the contractual provisions of the instrument. De-recognition occurs when rights to cash flows from a financial asset expire, or when a liability is extinguished.

### **Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the reporting period which are classified as non-current assets.

### **Loans and borrowings**

All loans and borrowings are initially recognised at the fair value of the consideration received net of issue costs associated with the borrowings. After initial recognition, these are subsequently measured at amortised cost using the effective interest method, which is the rate that exactly discounts the estimated future cash flows through the expected life of the liabilities. Amortised cost is calculated by taking into account any issue costs and any discount or premium on settlement.

### **Trade and other receivables**

Trade and other receivables in the Consolidated Statement of Financial Position are initially measured at original invoice amount and subsequently measured after deducting any provision for impairment.

### **Cash and cash equivalents**

Cash and cash equivalents in the Consolidated Statement of Financial Position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purposes of the Consolidated Statement of Cash Flows, cash and cash equivalents comprise cash and short-term deposits as defined above and other short-term highly liquid investments that are readily convertible into cash and are subject to insignificant risk of changes in value, net of bank overdrafts.

### **Trade and other payables**

Trade and other payables are stated based on the amounts which are considered to be payable in respect of goods or services received up to the date of the Consolidated Statement of Financial Position.

## 1. ACCOUNTING POLICIES (CONTINUED)

### **International Financial Reporting Standards in issue but not yet effective**

At the date of authorisation of these consolidated financial statements, the International Accounting Standards Board (“IASB”) and International Financial Reporting Interpretations Committee (“IFRIC”) have issued the following standards, which are effective for annual accounting periods beginning on or after the stated effective date.

|   | Effective for periods<br>beginning on or after |
|---|--|
| IAS 1 – Presentation of items of Other Comprehensive Income (Amendment) | 1 <sup>st</sup> July 2012                      |
| IFRS 7 – Financial Instruments: Disclosures (Amendments)                | 1 <sup>st</sup> January 2013                   |
| IFRS 13 – Fair Value Measurement  | 1 <sup>st</sup> January 2013                   |
| IFRS 10, 11 & 12 and IAS 27 & 28 – Investment Entities (Amendments)     | 1 <sup>st</sup> January 2014                   |
| IFRS 9 – Financial Instruments  | 1 <sup>st</sup> January 2015                   |

The Group is currently assessing the impact of IFRS 10 “Investment Entities” (Amendments). All other standards and interpretations are not expected to have a material impact on the consolidated financial statements.

As the Group prepares its financial statements in accordance with IFRS as adopted by the European Union, the application of new standards and interpretations will be subject to their having been endorsed for use in the EU via the EU Endorsement mechanism. In the majority of cases this will result in an effective date consistent with that given in the original standard or interpretation but the need for endorsement restricts the Group’s discretion to early adopt standards.

## 2. SEGMENTAL REPORTING

The Group operates in one business segment, provision of consultancy services to, as well as making and trading investments in, financial services businesses.

The Group identifies its reportable operating segments based on the geographical location in which each of its investments is incorporated and primarily operates. For management purposes, the Group is organised and reports its performance by two geographic segments: UK & Channel Islands and Non-UK & Channel Islands.

If material to the Group overall (where the segment revenues, reported profit or loss or combined assets exceed the quantitative thresholds prescribed by IFRS 8 Operating Segments (“IFRS 8”)), the segment information is reported separately.

The Group allocates revenues, expenses, assets and liabilities to the operating segment where directly attributable to that segment. All indirect items are apportioned based on the percentage proportion of revenue that the operating segment contributes to the total Group revenue (excluding any unrealised gains and losses on the Group’s non-current investments).

Each reportable segment derives its revenues from three main sources. These are described in further detail in Note 1 under ‘Income from investments’.

All reportable segments derive their revenues entirely from external clients and there are no inter-segment sales.

The principal addition in the year relates to the acquisition on 1<sup>st</sup> November 2012 of a further 6.71% shareholding in Besso Insurance Group Limited for £775,000.

The principal disposals relate to the following transactions in the year:

On 16<sup>th</sup> March 2012 the Group made a partial disposal of 4.02% of its then total 34.02% equity interest in Besso Insurance Group Limited (“Besso”) with a carrying value of £279,000 for consideration of £278,698. The partial disposal was made from an 11.29% equity interest in Besso originally acquired on 31<sup>st</sup> March 2011 by B. P. Marsh & Company Limited, a wholly owned subsidiary of the Company, which at the time increased the Group’s overall holding from 22.73% to 34.02%. The 4.02% disposal represented the proportion of shares which were available for buy-back by Besso following the exercise of a Call Option agreement (entered into on 26<sup>th</sup> May 2011) for subsequent issue to management under a share incentive scheme. As a result of the Call Option being exercised, and the further 6.71% acquired on 1<sup>st</sup> November 2012 (noted above), the Group’s overall holding in Besso as at 31<sup>st</sup> January 2013 was 36.71%.

On 17<sup>th</sup> May 2012 the Group made a disposal of 2.75% of its then total 18.94% equity interest in Hyperion Insurance Group Limited (“Hyperion”). 1,193,500 shares (from a total holding of 8,222,900 shares) were sold to an existing Hyperion shareholder and co-investor, Murofo Investments S.L., for a cash consideration of £4,535,330. Following a major acquisition by Hyperion on 3<sup>rd</sup> July 2012 which was part funded by the issue of new shares, as at 31<sup>st</sup> January 2013 the Group’s overall holding in Hyperion stood at 13.84%.

**Group (continued)**

In addition, as at 31<sup>st</sup> January 2013 the Group held 1.35% of the share capital of Randall & Quilter Investment Holdings Plc (“R&Q”). R&Q is an AIM listed company. During the current year R&Q made two ‘return of value’ distributions totalling £55,442 to shareholders through the issue and subsequent cancellation of new shares. The Group elected to receive these distributions (£32,731 in June 2012 and £22,711 in November 2012) as ‘capital’ receipts rather than the dividend (income) alternative. The Group has treated these distributions as disposal proceeds and reduced the cost base of this investment accordingly, resulting in a £4,501 realised gain on disposal of investment (see Note 13) which is reflected in the Consolidated Statement of Comprehensive Income for the year.

On 27<sup>th</sup> July 2012 the Company’s wholly owned subsidiary B. P. Marsh & Company Limited entered into a Share Exchange Agreement with The Broucour Group Limited (“the Broucour Group”) in respect of its 49% equity investment in Amberglobe Limited (“Amberglobe”). On this date the Broucour Group acquired the entire issued share capital of Amberglobe (£200,000 divided into £130,000 ordinary shares and £70,000 preference shares of £1 each, of which the Group, through its subsidiary undertaking, owned £98,000 divided into £28,000 ordinary shares and £70,000 preference shares). The Broucour Group was incorporated in July 2012 as a holding company to facilitate the acquisition of the assets of Turner Butler Limited (“Turner Butler”). The Group assisted in this acquisition by providing the Broucour Group with a £600,000 loan facility to fund the acquisition cost and associated working capital requirements which was drawn down in full on 27<sup>th</sup> July 2012. As a result of this transaction, the Group’s original investment in Amberglobe is now held in the Broucour Group, with Amberglobe now a wholly owned subsidiary of the Broucour Group.

The aggregate capital and reserves and profit / (loss) for the year shown above are extracted from the relevant local GAAP accounts of the investee companies except for those of Hyperion Insurance Group Limited which are prepared under IFRS.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the reporting date.

The Group's net trade receivable balance (current and non-current) includes debtors with a carrying amount of £490,046 (2012: £263,552) which are past due at the reporting date for which the Group has not provided as there has not been a significant change in credit quality and the amounts are still considered recoverable. The Group does not hold any collateral over these balances.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
FOR THE YEAR ENDED 31<sup>ST</sup> JANUARY 2013

**16. LOANS AND OTHER PAYABLES**

During the year, the Group repaid £1,250,000 of a loan facility totalling £4,325,000, which certain directors and companies controlled by the directors, or other related parties, agreed to provide to the Group during the year to 31<sup>st</sup> January 2011. The loan facility is secured on the assets of the Company, accrues interest at a rate of UK Base Rate + 4% (subject to a minimum of 6.5%), and is repayable in full by 9<sup>th</sup> June 2013. As at 31<sup>st</sup> January 2013 none of this facility remained drawn down (as at 31<sup>st</sup> January 2012: £1,250,000 drawn down).

Interest on this loan facility of £64,760 (2012: £103,524) was charged to the Consolidated Statement of Comprehensive Income for the current year (Note 3).

In addition, during the year the Group received an upfront payment of £300,000 in respect of a three year loan arrangement fee from Besso Insurance Group Limited (“Besso”). As at 31<sup>st</sup> January 2013 £100,000 of this fee was included in the Consolidated Statement of Financial Position under ‘Non-current liabilities’ as long-term deferred income. The remaining portion of the fee is included within the Consolidated Statement of Financial Position under ‘Current liabilities’ or has already been credited to the Consolidated Statement of Comprehensive Income as fees receivable. The receipt of this upfront fee had no cash impact for the Group as it was funded through an increase to a loan facility provided to Besso in March 2012.

This carried interest provision represents S. S. Clarke’s entitlement to a maximum of 20% of any gain, after deducting expenses and following the repayment of all loans, redemption of all preference shares, loan stock and equivalent finance provided by the Company, on the sale of certain agreed investments of the Company and its subsidiaries.

No amounts were paid under this contract during the year (2012: £Nil).

The directors estimate that, if the Group were to dispose of all its investments at the amount stated in the Consolidated Statement of Financial Position, £7,933,000 (2012: £7,415,000) of tax on capital gains would become payable by the Group at a corporation tax rate of 23% (2012: 26%).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31<sup>ST</sup> JANUARY 2013

**18. DEFERRED TAX LIABILITIES – NON-CURRENT (CONTINUED)**

The Government recently announced a further 2% reduction in the corporation tax rate from 23% to 21% with effect from 1 April 2014, which is expected to be legislated in the Finance Bill 2013.

As the 21% rate was not substantively enacted at the year end and is not effective until 1<sup>st</sup> April 2014 at the earliest, this rate has not been used in calculating the deferred tax liabilities arising from the unrealised gains on the revaluation of the Group's investments.
